GIORGIO LOMBARDI

Category: More
business description: In Novi Ligure as in Tortona the ice cream shop Lombardi has become a must for fans of ice cream in the province and beyond. Their ice creams are prepared from a careful selection of natural raw products of high quality: milk, cream and fresh eggs from a controlled supply chain and a wide range of flavors that varies according to the season. Do not miss the fruit flavors embodying the finest products of local agriculture: the strawberries from Tortona to the peaches from Volpedo, from fig fiorone of Monleale and mint from Pancalieri. Among the novelties of the year are the tasting trails in naturalness and the combinations of wine, liqueurs and ice creams.
