Le Cicale

Category: Restaurants and taverns
business description: Another leap forward for this modern trattoria set in a country home with garden and outdoor dining area in summer. The Molinari brothers have made this place, secluded and not far from the city, what could be called an oasis of good taste, characterized by elegance, genuine tastes and several innovative dishes. Excellent and carefully selected wine list. In short, all the elements for success. It has arrived, considering the good attendance and our profound satisfaction after the last visit this year.
